

Homework 1

L519: Bioinformatics: Theory and Applications

School of Informatics

Indiana University – Bloomington

Jan. 27, 2003

Due date: before class on Feb. 3, 2003

Complete the Quiz I and run the three programs on IBM SP using the command `llsubmit`.

Hints :

- Look at llguide at <http://bio.informatics.indiana.edu/sunkim/c/s03/L519/lab/>.
- You can login the machines, `aries01.ucs` to `aries09.ucs` and more.
- Be sure to login to `aries01.ucs` for the first time login.
- You need to set aliases for several commands, especially for `rm`. For example, in the `.bash_aliases` file, `alias rm='rm -i'`.

Directory and submission :

- Create a directory `/gpfs/L519/yournetwork-id`
- Create a directory `/gpfs/L519/yournetwork-id/hw1`
- Put the three scripts on `/gpfs/L519/yournetwork-id/hw1`
- Put the result from the three scripts on `/gpfs/L519/yournetwork-id/hw1` with a name `your-network-id.p#.result`
